

Moments

ACT I

GIRL enters. BOY is sitting on floor in silence.

GIRL
Oh, hi.

BOY
Hi.

GIRL
(after a moment) What were you doing here?

BOY
Oh, sorry. Just sitting. I enjoy stillness.

There is a pause.

BOY
Would you like to sit?

GIRL sits without a reply. Another pause, as GIRL stretches out her neck.

BOY
Are you okay?

GIRL
Yeah. Just stretching my neck. *(pause)* Did you know proper curvature of the neck ensures optimum central nervous system, immune system, digestive system and motor skill functioning?

BOY
No.

There is another pause, as BOY takes out a SANDWICH wrapped in plastic from a box in front of him, unwraps it, and eats. GIRL watches. After a moment, BOY speaks.

BOY
Would you like some?

GIRL
What is it?
